THE VALUE OF A BEGINNING

TOO many people look down on small beginnings. They think they will open a Savings Account when they get a hundred dollars. We have seen a good many more really substantial savings accounts developed from a start of One Dollar and a determination to get ahead, than from hundred-dollar starts without the determination. We like these small beginnings. They show the true saving spirit. Open that account to-day.

Spring Millinery

For authentic information regarding the latest styles you are cordially invited to visit our Millinery Department.

We are not swayed by the wind of hearsay; our information is correct and authentic, straight from the two fountain heads of fashion—Paris and New York.

Don't think for a moment, however, that our showing is confined to the Pattern Hats of the leading Parisian and New York milliners. In addition to these we have numerous models from our own workrooms—clever adaptations of imported styles, made expressly to fit American heads, notions and purses.

A Challenge

I challenge the world to show a better SEWING
MACHINE than

THE NEW HOME

This Machine has features that the makers of other
Machines have not yet thought of. For instance
Ball Bearings and Vibrating Shuttle.

It is the lightest running, easiest working Machine
on the market and none can compare with it in beauty
of design.

I've been selling "NEW HOMES" for 50 years.
Unscrupulous competition should not be con-
sidered.
